Description

Dear Reader,

my name is Paul Rudolf and I am a 24-year old mathematics student at Julius-Maximilians-University in Würzburg, Germany. During my previous studies in Integrated Life Sciences (Biology, Biomathematics and Biophysics) at the Friedrich-Alexander-University in Erlangen-Nürnberg, I developed a great interest in mathematics and decided to continue my studies in mathematics after finishing my bachelors degree in the field of biology.

My interests and focus in the field of mathematics are probability theory, statistics, numerical mathematics and mathematical biology. During my bachelor thesis at the Chair for Mathematical Stochastics (Prof. Christoph Richard) I studied and implemented the algorithm "Simulated Annealing" to reconstruct phylogenetic trees.

Alongside my studies, I work for Siemens Healthineers AG at the Research & Development Department in Forchheim and support them in the fields of data analysis and data visualization. During the current summer semester I also work for the Institute of Mathematics at the Julius-Maximilians-University Würzburg as a student teaching assistant.

Personal Details

Birth	October 27, 2001 in Erlangen, Germany
Hobbies	Spending time with family and friends, Doing sports (Road cycling, Running, Soccer, Spikeball), Reading books, Listening to music

Academic Education

2021-2025	Integrated Life Sciences (Biology, Biomathematics und Biophysics) B.Sc. , <i>Friedrich-Alexander-University Erlangen-Nürnberg</i> , <u>Thesis</u> : Kombinatorik Phylogenetischer Bäume und das Prinzip der Minimalen Evolution, <u>Supervisors</u> : Christoph Richard & Torben Krüger (Chair for Mathematical Stochastics) <u>Grades</u> : 1.7/1.0 (overall/thesis)(best of class)
-----------	--

since 2025 **Mathematics B.Sc. (Minor Subject: Biology)**, *Julius-Maximilians-University Würzburg*,
Grades: 1.1/- (overall/thesis)(currently second best of class)

Working & Teaching Experience

2021-2023 **Working Student IT User-Experience**, *Siemens Healthineers AG*,
Erlangen

2024 **Tutor for Mathematics and Physics**, *Paukkammer Erlangen*

2023-2025 **Student Assistant at Chair for Mathematical Stochastics**,
Friedrich-Alexander-University Erlangen-Nürnberg

Student Teaching Assistant for:

- Stochastische Modelle (WS 2023/24)
- Mathematische Modellbildung und Statistik für Naturwissenschaftler (WS 2023/24 and WS 2024/25)
- Introduction to Statistics and Statistical Programming (SS 2025)

since 2026 **Working Student Advanced Technologies Research & Development**,
Siemens Healthineers AG, Forchheim

2023-2025 **Student Assistant at the Institute of Mathematics**,
Julius-Maximilians-University Würzburg

Student Teaching Assistant for:

- Mathematik für Informatiker 2 (SS 2026)

Skills

- Languages: German (Native Language), English (fluently)
- Programming Languages: Python, R
- Open Office / Microsoft Office
- PowerBI
- Latex

Memberships

- Deutsche Mathematiker-Vereinigung e.V. (DMV)
